SUMMARY

Front-end web developer with a background in assistant management. Trained at University of Denver coding boot camp and earned a certificate in full-stack web development. Determined problem-solver passionate about developing apps; focused on learning everyday and strengthening my skills. Excels in creativity, teamwork, and building projects from ideation to execution.

TECHNICAL SKILLS

Front-end:

- HTML, CSS, Javascript, React.js, Bootstrap, APIs

Back-end:

- MongoDB, mySQL, Express.js, Node.js

PROJECTS

Brewfinder | <https://github.com/relero90/brewfinder> | <https://relero90.github.io/brewfinder/>

- We created Brewfinder to allow users to search any city or state in the U.S. and find local breweries as well as current and upcoming weather data.
- I was tasked with finding a free API for breweries and get it functioning and display dynamic information on the page.
- HTML, Bootstrap, CSS, Javascript, APIs

Fit The Mood | <https://github.com/halliemestas/FitTheMood> | <https://limitless-river-86981.herokuapp.com/>

- Fit The Mood was created to allow users to track and store their data regarding their mood and any workouts they've completed today.
- I was tasked with implementing a lot of the react-bootstrap components as well as dynamically rendering user input on the page.
- React, CSS, React-bootstrap, Javascript, Node.js, Express.js, MongoDB, bcrypt, GraphQL

Employee Tracker | <https://github.com/SThevenot/employee-tracker>

- I made a back-end application that allows a user to view, add, or edit departments, roles, and employees from a database.
- Node.js, Javascript, mySQL, Sequelize, mySQL2, Inquirer

EXPERIENCE

Assistant Manager
Jersey Mike's Subs

2020– 2021
Springfield, IL

Key Accomplishments:

- Dedicated time to take stock and order trucks as needed to keep up with dynamic sales
- Remained motivated during shifts and created a positive environment for staff
- Ensured that shifts went smoothly and everyone stayed on task

EDUCATION

Full-Stack Coding Bootcamp: Remote

October 19, 2022

An 12 week intensive coding bootcamp focused on gaining skills in both front-end and back-end technologies used in web development.
